DECLARATION OF LILIANA CANCINO IN SUPPORT OF
SUPPLEMENT TO PETITION TO REVIVE ABANDONED PATENT APPLICATION

Mail Stop - Petitions
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Attention: Examiner John Gillon, Esq., Petitions Office

Sir:

COMES NOW, LILIANA CANCINO, and states and declares as follows:

I am the office Administrator in the office of Robert J. Schaap, located in Woodland Hills, California. I have worked with this law office since about June of 1996 and, therefore, I am intimately familiar with the details of responding to documents from the U.S. Patent Office and the U.S. Trademark Office.

This office has been, since the beginning of my employment, located and is still located in an office building in Woodland Hills, California. This office building maintains a separate mail room in which mail from the U.S. Post Office is delivered and placed in a mailbox for each individual office. As part of my daily activities, I walk to that mail room in the building and retrieve the mail for this particular law office. When the mail is retrieved, I go through the mail and sort out matters and, in particular, matters which require docketing to respond to date requirements.

When an office action is received, or any other document from the U.S. Patent Office or the U.S. Trademark Office is received and requires a response, I immediately docket the due date in the docket book, which I maintain. Immediately thereafter, I also make an electronic entry in a computer in my office. Unfortunately, electronic entries were not made in the year 2002 and, therefore, there is no electronic entry to print out and send for that year. Nevertheless, after I make an entry in my docket book, I pull the file for a particular document which was received and clip the document to the file and hand it to the secretary of Robert Schaap, who was then Pauline Barraza. I am aware Ms. Barraza similarly made an entry in her docket book. In order to show that the matter was properly docketed, each of us write on the Office Action or other document from the U.S. Patent Office or U.S. Trademark Office the actual due date and initial the same.

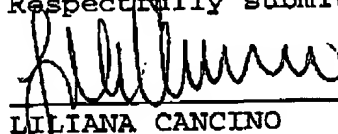

I am also responsible for mailing documents to the U.S. Patent Office or U.S. Trademark Office in response to an Office Action or other requirement from the U.S. Patent Office or the U.S. Trademark Office. When a document is mailed in response to , for example, an Office Action, a redline entry is made through that page of my docket book. Thus, when a document is mailed in June of a particular year, a redline mark will appear through the entry in the docket book for June of that year.

Attached hereto are docket pages from my docket book for June of 2002 and May of 2002. Also attached are entries of the docket book of Pauline Barraza, who was here at that time in 2002.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.

Dated: March 28, 2005

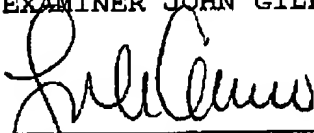

Respectfully submitted,

LILIANA CANCINO
